EMERGENCY GLASS BREAK DOOR RELEASE SWITCH DUAL

• The alarm button Release Emergency Break Glass helps to save lives in emergency situations. Support Electric Control or Access Control System.
• Made of flame-retardant PC material, very convenient and safe. Witnesses only need to break the panel glass of the fire safety alarm button to send the fire alarm signal to the controller and send part of the fire alarm signal.
• It is a better protector at home, shop and other places, and if they take preventive measures and prepare in advance, it is much better for the public and for us. ?
• This product is very cost-effective, it can help you through the difficult time in the event of an emergency, the operation is very simple, very practical, cheap, like to take it away.
