# JX861M

## XLR MALE PLUG METAL (SINGLE PKG)

• PREMIUM MATERIAL - XLR plug in made of Zinc alloy, ensures high conductivity and durability. Rubber shell for smooth surface without burrs and the noise can be well shielded.
• WIDE COMPATIBILITY - XLR Adapters for Pro Audio use. Great for mixers, microphones, amplifiers, EQ, rack gear, keyboards, guitars, electric piano, electric drums etc. Provide optimum signal transmission.
• CABLE FUNCTION - XLR male connector is ideal for audio connections and connecting microphones and other recording equipment.
• LOCKING METAL END - The male XLR Plug has a locking end with a metallic grommet. This allows the ends to snap into place without being loose.
