NA68

1800W DC-DC Step UP Convertor 8-60V TO 12-97V 40A

- Input voltage: 8 to 60V
- Input Current: 10V-30V input voltage, maximum current is 35A-40A; 31-60V input voltage, maximum current is 30A-35A
- Quiescent current: 15mA (measured at 12V to 20V, the higher output voltage will increase the quiescent current)
- Output voltage: 12 – 97V continuously adjustable
- Output Current: 35A MAX,
