

GA311

1CH*60W AMP BOARD 8-24VDC "TPA3118"

- BTL mono 60W digital amplifier board Amplifier chip: TPA3118
- Amplifier Power: 1 * 60W (one channel, stereo requirement to two)
- Supply voltage: 8 ~ 24VDC
- Package: 1 Pc of TPA3118 Module
- Recommendation: Use 24V and 4 Amp or more power supply, Also suggested to add large uf Capacitor on input power supply to board , also adding a heat sink on IC is suggested
