T31162E

2.1CH POWER AMP BOARD 12V-24V 2*50W 100W XH-M139

• dopt TPA3116D2 high performance power amplifier chip.
• Left/Right Channel + Subwoofer Channel, excellent sound quality.
• DC12-24V wide power supply voltage, suitable for various audio applications.
• High quality double sided circuit board, anti-aging and high temperature resistant.
• Easily adjust the volume with the potentiometers.
