

GA314B

2CH*30Q AMP BOARD 8-24VDC "TPA3118" BLURTOOTH

- Premium Amplifier Board: This high quality amplifier board offer wonderful sound quality and you don't have to worry about the loudspeaker internal resistance;
- High Performance: The digital amplifier has higher overload capacity than analog amplifier, and will not cause crossover distortion, transient intermodulation distortion;
- Parameters: Input voltage range from 8V to 26V DC; Dual channel of 30W+30W power output; Automatically enter the Bluetooth pairing mode when starting up.
- Application Field: This power amplifier board is suitable for turning normal speaker into Bluetooth speaker; The applicable speaker impedance are 4, 6, 80hm
