RY5013

3 CH Remote 433 MHz "UP-Down-Pause"

- Working voltage: AC220±10%
- Working temperature: -25??+75?
- Working frequency: 433MHz
- Load power: ≤500W
- Receiving sensitivity: ≥-95dB
- Remote control distance: 100-500 meters (open area)
- Support inching operation. Garage door control, projection curtain control, remote control curtain, plastering machine and other fields have the advantages of easy installation, simple use, safety and reliability.
- Multiple remote controllers can be learned, and all keys of each remote controller can be learned. One remote controller can control multiple switches, or multiple remote controllers can control one switch.
- The single key remote controller is a self-locking switch.
- In order to facilitate the use of customers, this controller can output dry contact signal and live output. Simple operation, flexible and arbitrary combination.
- It is mainly used in the fields of lamps, electric doors, windows, lifting equipment, elevator control and security industry.
