

# BP360

3 Series 60A 18650 PCM Board 11.1V 12.6V

- Serial connection protection for 13S cells, so you can use this BMS for lower voltage only change the wire connection ways,
- it makes you more conveniently and flexibly to use this BMS
- Extremely low quiescent power consumption, all of the power loss can not reach more than 30 u.
- With stable and full protection functions such as precise over-charge protection, over-discharge protection, over-current protection, and short-circuit protection
- It will not affect the battery pack's performance by using balance technology to balance the current stably and heating distribution etc
