

RYTF44

4CH REMOTE 433

- No. of the channel: 4
- Operating mode: Non-Locking
- Launch distance :20-200 meters (different voltage, different results)
- Receiver Operating voltage: DC 5V. Transmitter Operating voltage: DC 12V
- Transmitting frequency: 315 MHZ., Receiver sensitivity is: -98dB., Transmitter Operating current: 10mA at 12V., TransmitterRadiated power: 10mW at 12V., Transmission distance (m): 3 to 5.
