NA459C

5V 1A Wireless Power Supply TX RX CHRG Module

• The 5V 1A large current wireless charger module transmitter receiver charging coil Module is mainly used in electronics products for charging wirelessly.
• Input voltage: 9 ~ 12V
• Maximum load current: 1.3A
• Receives the output voltage and current: 5V / 1A
• Transmitting coil size: diameter 43mm, thickness 2.3mm
• Transmitter module size(LxWxH): 18x8.5mmx15mm
• Receiver Module size(LxWxH): 10x25x3mm
• Receiving coil size: diameter 43mm, thickness 1.2mm
• Receive the best distance: 3 ~ 6mm
