LASERD

6MM SIZE 650NM 5MW Laser Diode

- Output Power: 5mW; Wavelength: 650nm
- Working Voltage: 5V; Operating Current: less than 20 mA; Laser Shape: Dot
- Working temperature: -10°C to +40°C; Housing material: High quality Copper
- Dimensions: 6.5 x 18mm; Wire connection: Red wire connect to Positive, Blue wire connect to Negative
