## 8P8C JOINTER (CAT5) WATERPROOF

- Meeting the standards set by the IP68 rating, this coupler ensures both waterproof and dustproof capabilities, safeguarding network components against moisture and dirt for reliable connections
- Adhering to the CAT6 standard, this coupler supports performance levels of up to 250 MHz while also maintaining backward compatibility with CAT5/CAT5E/CAT6 standard
- With an IP68 rating, indicating waterproof and dustproof features, this Paruht coupler is suitable for outdoor usage, offering protection for your RJ45 ethernet connections. It proves ideal for applications such as external holiday lighting displays, IP security cameras, and industrial settings.
- Crafted from high performance materials with meticulous attention to detail, this RJ45 coupler exhibits resilience to pressure and impact, as well as resistance to extreme temperatures. Its durability ensures prolonged and reliable usage.
- Lan Cable Joiner Shielded for CAT5/5e/6/8P8C Female to Female Paruht ethernet Coupler LAN Adapter Extender Double Head Outdoor
- Designed as a shielded RJ45 female to female field installable Paruht coupler, this device facilitates the connection of two RJ45 cables without the need for additional tools. Simply insert the standard modular plug for swift installation
