AB011

Active Buzzer Module AB011

• Passive Buzzer Module is a built-in construction of digital transducers, DC energy provides, extensively utilized in computer systems, printers,
copiers, alarms, digital toys, car digital apparatus, phones, timers and different digital electronics projects for Alert sound.
• Operating Voltage : 1.5 ~ 15V DC
• Working Current: Less than 25mA
• Material: Plastic
• Tone Generation Range : 1.5 ~ 2.5kHz
• Dimensions (LxWxH): 26 x 15 x 11 mm
