

SE260

Active Dual Infrared Beam Sensor

- Active Dual Infrared Beam Sensor for perimeter protection
- When an intruder passed through the invisible beam, signal is triggered to the control unit(not included)
- No. of Beams:2
- Alert Distance Max: Indoor-300m, Outdoor-100m
- Infrared transmitting frequency: 1.92KHz
- Built in AGC circuit wth high Anti-EMI/RFI capabilities
- Fully sealed design, rainproof and dustproof
- Anti-glare of up to 50,000 Lux, automatic adjustment built-in strong light filtering system

specification for SE260	
Model	ABT
Housing material	PC
Working environment	-25? — 65?? Humidity:5% — 95% RH
Working current	40mA — 65mA
Working voltage	12-24VDC
Ganged alarm	Yes
Tamper-proof output	NC, 24V/0.5mA
Contact capacity	AV/DC, 30V/0.3mA
Alarm output	N C/N O
Response time	50 — 700 ms
Beam amount	2
Indoor alert distance max	300m
Outdoor alert distance max	100m
Package	20pcs/carton, 49.5*45*37cm
