

PIRC

DC12V24V Ceiling Pir Motion Sensor Switch Module

- This is a DC 12V 24V Ceiling PIR Motion switch that detects the movement of the human body.
- When people enter its detecting range it will switch on when people leave it will switch off within a delay time.
- Led light
- Led strip light
- Led cabinet, wardrobe light
- Led display light
- Stair light
- It can control 3A load
- Small size, easy for installation
- High stability
- Easy connection way
- Low static power consumption
- Voltage: 12v/24v
- Power: 3A
- Delay time: 20-60s
- Detecting range: 120 degrees
- Detecting distance: 1-3m
