

SW806

Energy Saving Motion Light Switch

- Can switch on the load automatically
- after detecting the human motion.
- It can be adjusted to detect day & night automatically
- The sensor can be rotated 180° in both pan and tilt
- Multiple Adjustments for efficient Functioning-
- Time Delay, Ambient Light & Sensitivity
- Detection range: 11m Max (adjustable)
- Power Source: 110~240 VAC
- Rated load: 1200W Max (incandescent lamp),
- 300W (energy-saving lamp)
