

SVALVEM

FA0520F 12V DC 3Way Mini Elec. Solenoid Valve For Air/Gas

- This is a tiny 12V DC 2-position 3-way Small Mini Electric Solenoid Valve for Gas Air/Pump Gas Release Exhaust Discouraged Solenoid Exhaust Valve.
- Control gas flow in and out with this small Gas valve which operates on 12V dc.
- This valve act as closed (blocked flow) when not powered.
- When you apply a 5V power supply to the input, the valve gets open and the flow-through valve get started
- Removing the supply voltage again blocks the flow.
- This is a two-way valve which means it can flow in both directions.
