

# LEHD18

HDMI TO DVI (18+1) LEAD 1.5MT

- Connects computers with DVI connections such as home-theater PCs, Mac minis, & some laptops-to a HDMI equipped HDTV or other display device with HDMI connection.
- For office professionals, you can use this cable to create quality presentations using your projector.
- For home users, the cable will help you turn your computer into a virtual home-entertainment center, so you can watch all your computer-based media on your home-theater screen.
