

DIY WOODEN MERRY GO ROUND LDR BASED

KWMERY

- Wooden Merry-Go-Round Frame: Pre-cut wooden parts for the structure.
- Geared Motor: Responsible for rotating the carousel platform.
- Light Sensor (LDR): Detects light to trigger motor operation.
- Circuit Board: Includes the necessary wiring and microcontroller setup.
- Battery Holder: Powers the motor and circuit.
- Wires and Connectors: For electrical connections.
- Small Gears: Facilitate the transmission of motion.
- Screws and Fasteners: For assembling the parts.
