

L9110

L9110S DC Stepper Motor Driver Board AA223

- This module has two independent motor driver chips which can each drive up 800mA of continuous current.
- On-board two L9110 motor control chip
- Module can be driven by two dc motors at the same time or one phase 4 line 2 type stepping motor
- Input voltage : 2.5 to 12 Volt DC
- Each channel has a continuous output current 800 ma
- PCB Size : 29.2 mm x 23 mm
