RB775

Metal Drill Chuck Bits Rottery 0.5-3MM FOR RS775

- Shank Drill Chuck Collet Bits Rotary with Screw
- 0.5-3 mm
- Material: Metal
- Installing the microcontroller, 28-pin, 40-pin microcontroller left aligned 28/40P (A) This flag line short-circuit cap on the A position.
- The 8,14,18,20-pin microcontroller aligned on the left 8P/14P/18P/20P flag line (B), shorting cap on the B position.
- The ICD2, KIT2, KIT3 crystal head or 6Pin Block programming connection for programming the programming operation. (Note: a separate program of the seat can not be programmed the chip is programmed functions)
