

CCS07

Mini GSM GPS Tracker with Audio Surveillance

- Advance surveillance device with GSM GPS tracking and Audio monitoring
- Can track live location through web and mobile as well as request the location through sms
- Real time voice surveillance and auto voice call back feature
- Storage: SD/TF card slot that supports upto 16GB card
- Built in Li battery of 3.7V 400mAh with battery life of 12 hours on stand by and 5-6 hours in working condition
- Built in magnet for easy installation
- Miniature size for covert operations

Specification for mini gps tracker	
Size	35*20*14(L*W*H)
GSM/GPS Signal Band	GSM850/900/1800/1900Mhz
GSM Positioning Time	25s
The call current	150mA
Open Sound Control Current	30mA
Standby Current	2.5mA
Working Voltage	3.4-4.2 DC
GPRS:	Upload60, TCP/IP
Humidity range	Non-Condensing 5%-95%
Working temperature	'-20° to 55° C
Storage Temperature	'-40° to +85 ° C
Network System	GSM/GPRS
Continous Calls	150-180minutes
Charge Input	300~500 ma, Output DC 5V
Charging Input	110~220V 50/60 Hz
Product weight:	0.019 kg
