

M3232M

MINI RS232 TO TTL CONVERTER ADAPTER MODULEBOARD

- Works with PCs or Laptops
- Supports microcontroller UARTs – 5V TTL signal levels.
- Single DC supply: wide input range for 4201 or 5V for 4202 and 4203
- Small PCB footprint of 50´40mm
- Low current status LED(s)
- Very low power consumption
