

BOANP

Outdoor Antenna 11dBi

- Directional LPDA Antenna for Mobile Signal Repeaters
- Gain-11dBi
- Frequency Range: 698-960/1710-2700 Mhz
- Suitable for 2G/3G/4G LTE
- Good standing wave performance,high gain,broad band,big F/B ratio,strong structure
- Waterproof with Anticorrosion material for long life
- Small size and easy installation
- Waterproof with Anticorrosion material for long life

Details	
Frequency Range_MHz	698-960/1710-2700
Maximum Power -W	50
Polarization	Vertical
Input Impedance	50
VSWR	<1.5
F/B Ratio	18
Vertical Bear width _°	50/40
Horizontal Bear width_°	65/50
Gain-dBi	11
Bandwidth-MHz	262/990
Cable&Connector	RG11, N Female or customized
Mechanical Specifications	
Dimensions-mm	445×265×65
Weight-kg	0.8
