

SUP3697

POWER SUPPLY 36V/9.7AMP SMPS

- **Reliable Output Performance:** With its output current ranging from 2A to 100A, our Power Supply ensures stable and consistent power delivery.
- **Single Output Design:** Designed with simplicity in mind, our Switching Power Supply features a single output type.
- **Transformative Voltage Regulation:** Equipped with a built-in voltage regulator transformer, our Power Supply provides precise voltage regulation for your devices.
- **Convenient and Efficient:** The DC power input and compact design make our Switching Power Supply easy to install and use
