

RY1E

Remote Control Wireless 2 Key with Sliding Flap

- Remote Control with 2 Keys ,mini metal key chain hook and protective sliding flap
- Keys type: Lock and Unlock
- Transmission distance:30-100m (depends on open area)
- Working Voltage: 6V, Operating Current: 12 mA
- Operating Frequency: 315 MHz
- Transmit power: +9 dBm

Specification for RY1E	
Operating voltage	DC12V
Encoding Chip	PT2262 , EV1527,HCS301
Encoding type	fixed code, learning code, rolling code
Transmitting distance	60-100m(open space , receiving sensitivity : -108dBm)
Operating frequency	315MHZ,433.92 MHZ
Quiescent Current	0uA
Modulation mode	ASK
Transmitting power	>10mW
Operating current	12mA
Size	55mm*30mm*13mm
