

# SG90

Servo SG90 9g 180 Degree

- Getting an original TowerPro Servo Motor is not an economical option at all!!! And is also a very difficult task to recognize and buy an original TowerPro servo,
- Because there are many suppliers spread over different online shops who are selling fake servo motors under this Brand name.
- High resolution
- Accurate positioning
- Fast control response
- Constant torque throughout the servo travel range
- Excellent holding power
