JS585

SLECTOR SWITCH 18 PIN

- **Type: 18-Pin Selector Switch**
- **Robust Construction: Designed for durability in various environments**
- **Versatile Applications: Ideal for complex control systems and industrial machinery**
- **Smooth Operation: Provides reliable and effortless switching between positions**
- **Compact Design: Space-efficient for easy integration into control panels**
- **Clear Pin Configuration: Simplifies wiring for accurate connections**
- **Wide Voltage Rating: [Specify voltage, e.g., 250V AC] suitable for diverse applications**
- **Current Rating: [Specify current, e.g., 10A] for safe operation**
- **Extended Mechanical Life: Rated for [Specify number, e.g., 100,000 cycles] for long-term use**
- **Temperature Tolerance: Functions effectively in a wide temperature range**
