

SNPK

SOIL NPK SENSOR RS485

- Measuring range 0-1999mg/kg Operating humidity 5 to 95% (relative humidity), non-condensing Measurement accuracy $\pm 2\%$ F.s
- Warranty period: The host is guaranteed for 1 year, and the probe is guaranteed for 1 year Resolution 1mg/kg (mg/l) Baud rate 2400/4800/9600
- Response time is less than 10 (T90, seconds) Communication port RS485
- Working temperature 5 to 45° Power supply 12V-24V DC
- Soil nitrogen, phosphorus and potassium can be checked, Cable Specifications: Standard 2 meter
