

T7498ED

TDA7498E 2 X 160W DUAL CH DIG AD AMP CIRCUIT BOARD

- [Efficient Cooling System] Automatically activates the cooling fan when the heat sink temperature rises, maintaining optimal performance.
- [Advanced Power Supply Technology] Dc 15-36v with reverse polarity protection ensures and reliable operation.
- [High Output Power Digital Amplifier] Provides powerful sound performance for an immersive audio experience.
- [Premium Stereo Sound] Dual-channel design ensures exceptional audio quality, enhancing your listening pleasure.
- [Btl Mode Support] Enables 220w output at 3ohm for a single channel, delivering high-quality audio for various speaker configurations.
