USB F 2.54MM B/Out Board Direct 4P Adapter Board

• USB Female Head to Dip, 2.54mm Direct 4P Adapter Board, USB to 2.54mm Pin is very useful if you want to link a project with a USB connector for the power supply or data exchange.
• Standard size USB 2.0 socket mounted on a small PCB. No delicate soldering required. This USB connector can be easily attached to your projects
• It’s a USB 2.0 female connector. Connector quality is fine, the board is good with two 3mm mounting holes.
• This has to be always in your stock, always an on-demand product, use it for internal sub repair everywhere
