

LEUMF15

USB M TO F LEAD "BLUE" 1.5 METER

- Length: 150cm-1.5M. Higher transfer rates up to 5 Gbps
- Full-duplex data transmission support for new transfer types in the future
- Increased device current draw to better provide power for High power demand devices
- Features shielding that provides protection against noise from electromagnetic and radio-frequency signals, keeping your signal clear with less loss of bandwidth for higher performance
- USB 3.0 uses less power, but has increased power output - up to 4.8 Gbit/s. Compared with the USB 2.0 transmission speed, USB 3.0 is 10 times faster
