WFP2Y

WATER FLOAT SWITCH SENSOR WITH 2 MT WIRE

• Float Switch Water Level Controller Sensor
• Adopt Pure Copper Wire To Better Guarantee Power Transmission.
• With Working Principle Diagram, Easy To Debug And Install.
• Pvc Cable, Non-Toxic And Odorless, Soft And Rupture-Resistant, Stronger And More Convenient To Use.
• Using Pp Material, Non-Toxic And Tasteless, Low Density, Strength, Stiffness, Hardness, Heat Resistance Are Better Than Low-Pressure Polyethylene, With Good Electrical Properties And Insulation.
