YFS201

Water Flow Sensor (Sea) YFS201

• 1/2″ nominal pipe connections, 0.78″ outer diameter, 1/2″ of thread
• The simple and compact module
• Easy to Install
• Working Voltage: 5 to 18V DC (min tested working voltage 4.5V)
• Max current draw: 15mA @ 5V
• Working Flow Rate: 1 to 30 Liters/Minute
• Maximum water pressure: 2.0 MPa
• Flow rate pulse characteristics: Frequency (Hz) = 7.5 * Flow rate (L/min)
