

YFS201

Water Flow Sensor (Sea) YFS201

- 1/2" nominal pipe connections, 0.78" outer diameter, 1/2" of thread
- The simple and compact module
- Easy to Install
- Working Voltage: 5 to 18V DC (min tested working voltage 4.5V)
- Max current draw: 15mA @ 5V
- Working Flow Rate: 1 to 30 Liters/Minute
- Maximum water pressure: 2.0 MPa
- Flow rate pulse characteristics: $\text{Frequency (Hz)} = 7.5 * \text{Flow rate (L/min)}$
