ESC30

XXD Brushless ESC (Banana + T Plug) 30A

• Weld plug**30 A Welding Plug Brushless ESC Electric Speed Control 4 V to 16 V Voltage for More Remote Devices Yellow Rc Toy Accessories**
• ore convenient.
• Connect the motor end of the welding head is three 3.5 mm female banana.
• Connect the battery terminal is welded T plug male.
• Continuous current 30 A, instant 35 A, 40 A for 10 seconds.
• Upper limit speed of up to 300 000 within two-pole transfer switch, 12 poles outside turn 50000 rpm, 14-pole outside turn 42,000 rpm.
• 8 KHz PWM control, using speed control curves.
• Autothrottle adapt, fit more remote devices.
• BEC, MCU separate power supply, work more stable.
• 2 to 3LIPO (4 LIPO not allowed BEC output)
• BEC Output:
• Continuous 2 A, (instant 3 A)
• 2 LIPO 4 to 5 micro servos
• 3 LIPO 3 to 4 micro servos
• Specifications:
• Voltage range: 4 V to 16 V
